

## Bitvore for Munis

### Obligor Intelligence for Muni Bond Investors

Bitvore for Munis provides investors with situational awareness of changing local credit issues across the thousands of obligors and over one million active municipal bonds. Bitvore hunts for material changes underlying munis to alert investors to opportunities and risks in their portfolios and areas of interest. Investment professionals can take advantage of early information to increase returns and avoid risks.

“Pro-active monitoring of local and regional news that impacts our investments is a critical part of the overall surveillance performed by our credit team. Bitvore does much of the heavy lifting for us so that we can focus our expertise in interpreting changes rather than finding them.”

—Andy Meyers, COO —  
Breckinridge Capital Advisors

**Bitvore is simple, yet powerful; easy access to current credit impacting news for your obligors and issuers - from small to large.**

### Portfolio Surveillance

Customized and fully automated, Bitvore for Munis' powerful email alerts about material obligor changes keep you on top of your portfolio. Focus your time on analysis with easy access to news matched to your muni holdings from thousands of news sources, blogs and social media.

### Buy/Sell Decisions

Ultimately, what drives business success is the quality of decisions. For both buy-side and sell-side opportunities, Bitvore for Munis filters out irrelevant data and minimizes false positives by hunting tirelessly with a 360 degree view of material changes, arming you with business insight for right-on decisions.

“Bitvore delivers a new level of transparency into material changes in obligors. We head off surprises by scanning over 13,000 sources to extract the fresh muni news impacting your portfolio, sectors and municipalities. No more time-wasting searches, junk email alerts and gaps in your news coverage.”

—Jeff Curie, CEO – Bitvore

## On Demand Research

Get the research you need, when you need it. With Bitvore for Munis, you can search on demand and receive insights from thousands of hard-to-find sources; and with just a web browser and email, you can access the information filtered to your area of responsibility and obligor of interest.

## Compliance

Remaining in compliance can be a lot of work; but Bitvore makes it easy by filling the gap in time between filing the official statements, and the daily changes that impact the ability of a bond to generate its' promised returns. Bitvore for Munis also looks at 308 material situations that impact the means of repayment and covenants for revenue and general obligation bonds.
